

## Latest Firmware for the mObridge DA3 Preamp

**Pls note: When upgrading to the new 1.8.0 and higher software that now contain gain control for mono sources the non-volatile memory structure has changed. This may affect the channel mapping and settings of the DA3. We highly recommend saving your setup \*.rax file for reloading back in if necessary.**

**Pls note: When upgrading to the new 1.7.0 and higher software that now contain presets the non-volatile memory structure has changed. This may affect the channel mapping and settings of the DA3. We highly recommend saving your setup \*.rax file for reloading back in if necessary.**
