

mObridge Product Features

Product Series ▶ M1000-M-DA ▶ MOST® Digital & Analog Pre-Amp

The mObridge Digital and Analog Pre-amplifiers provide a connection between the MOST system in the vehicle with any aftermarket digital or analog amplifier. The DA series can provide 8 channels of RCA analog outputs, digital Toslink output and an amplifier turn on/off control. Full retention of the factory controls is supported - control Volume, Balance, Fader, and Equalizer (where applicable). There is no need for an external mounted controller or volume knob. The DA3 adds a full graphical interface for complete control of the DSP.

Features Include

PLUG & PLAY HARNESS READY
All components needed to connect and power the mObridge to your vehicle are supplied in this kit.

FIRMWARE UPGRADEABLE
Using the mObridge WIZARD, creates a gateway to change the specification of the mObridge unit. This ensures optimal performance and the latest vehicle compatibility.

MOST
mObridge is a licensed supplier of MOST technology.

mObridge Technical Specifications

Product Series ▶ M1000-M-DA ▶ MOST® Digital & Analog Pre-Amp

Kit Contents

Overall Dimensions

Metric	120 x 108 x 32mm
Standard	4.6" x 4.25" x 1.25"

Configuration

Vehicle Reconfigurable	Yes
Firmware Updatable	Yes
Update/Reconfig Method	Mini-USB

Wiring Colours

Black	Ground (-)
Red	Constant 12 volts (+)
White	Bypass Switch (pre-wired)
Blue	Remote Amp Turn On (Only to be connected to the mObridge Digital / Analog Pre-Amp (M1000-M-DA Series))

Adaptors

PORSCHEYAZ

The PORSCHEYAZ is designed for Porsche vehicles with a Yazaki-type connector. Typical installation is in early model Porsche vehicles, 2003-2005 model year. The only way to identify which optical system is in the vehicle is by visual inspection.

POWERFUL GUI

All system configurations including channel mapping, channel filter and eq parameter adjustment, time alignment, phase control and master eq is done on the fly using our GUI via USB connectivity.
