

Latest Firmware for mObridge M2.Pro

Version	1.12.9
Released On	20/6/2016
Fixes	<ul style="list-style-type: none">• Fixing iPhone pairing issue, and auto-connect. [ALL VEHICLES]• Fixing some MOST instability in rare cases [ALL VEHICLES]

Updating Your Firmware

Your mObridge M2 product is fully firmware updatable and can be updated in the following ways. Refer to our website at www.mobridge.us for further information.

Via USB Drive

This is the easiest way to upgrade your M2 firmware. Simply copy the firmware file to a USB thumb drive and insert in to the USB port on the M2. The M2 will automatically update to the new firmware and restart.

Via the mObridge Update Wizard

(This method requires a special USB cable to work correctly)

Download and install the mObridge Update Wizard from <http://www.mobridge.us/wizard>.

Via mObridge Android App (Bluetooth equipped products only)

Download the mObridge Android App via the Google Play Store.

Previous Versions

Version	1.12.8
Released On	7/6/2016
Fixes	
<ul style="list-style-type: none"> • Improve reliability of A2DP connections. [ALL VEHICLES] • Fixing high-frequency tone during A2DP streaming [ALL VEHICLES] • Workaround for multiple CDs emulating the same device in the CD-Changer [BMW] 	

Version	1.12.4
Released On	10/8/2015
Fixes	
<ul style="list-style-type: none"> • Fix case where media (iPod or USB) doesn't resume automatically after a phone call. [ALL VEHICLES] • Fixed fast forward and fast rewind issues on iPod [ALL VEHICLES]. 	

Version	1.12.2
Released On	27/6/2015
Fixes	
<ul style="list-style-type: none"> • Improve support for streaming playback via Apps on iPhone / iPad (eg Pandora/Spotify/Google Play Music etc). Now support sending next/previous track to the running App, as well as fetching the track information. [ALL VEHICLES] • Fixed jumping from Now Playing Disk when a device is connected/disconnected [MERC, PORSCHE, AUDI]. • Fixing issue where phonebooks sometimes don't show up [PORSCHE] • Connection improvements for older iPods [ALL VEHICLES]. • Switch to Bluetooth Simple Secure Pairing. No PIN Code is now required when pairing to the system. This fixes a lot of issues with Android phones, where the PIN code entry would time out. [ALL VEHICLES]
