

**MOBRIDGE ▶ M2.PRO ▶ DIP SWITCH SETTINGS**

DIP Switch settings for the M2.Pro MOST can be found in the tables below. This document is not a complete compatibility chart. For up-to-date vehicle compatibility please consult our website.

Use a small screwdriver to change the DIP-switches on the M2.Pro. The unit will automatically reset with the new settings. In some vehicles it may be necessary to remove the key and allow the vehicle to sleep (lock doors and wait 10 minutes), to ensure that the head-unit restarts and recognizes the new device.
